FEATURING
SUPER-GRIP®
The slip resistant fastening system

SUPER-GRIP® the slip resistant fastening system is engineered to provide original equipment installation in minutes. It's simple – no tools are needed. Multi-directional stretch polyester trim molds the seat cover to the contours of the seat. Quick release buckle fasteners, zippers (on some models) and velcro are the finishing touches that grip the cover to the seat.

For work and play we have it all!
